and His Holy Spirit Made One In Person.

Trinity Not In the Bible-Pastor Russell Says Roman Emperor Put It Into the Nicean Creed, A. D. 325. Confusion Followed - Some Claim Three Gods In One Person-Others Claim One In Three Persons-All Say Incomprehensible Mystery-Constantine's Trinity Fiat Enforced by Cruel Persecutions-Back to the Bible and Away From Creeds Urged.

17. - Pastor Russell addressed the London Tabernacle congregation twice today. We report one of his discourses, from the text, "To us there is one God, the Father, . . . and one Lord Jesus Christ."-1 Corinthians 8:6. The Pastor de-

clared that the confusion which has rent the Charlian Church into hundreds of s. ts has come through neglect of the Bible-a cause not generally recognized. Creed clashings are the direct result of the serious errors contained in all creeds.

No heathen idol is so horrible as that which the most intelligent Christian people have portrayed with the pen, purporting to represent the Almighty and His attitude toward men. We have misrepresented our Creator as worse in His purposes than the vilest of humanity, If Jehovah be God, let us worship Him. Why delay? If the horrible Baal of the Dark Ages be no longer our God, let us destroy his creed images and forget them.

Emperor Constantine's Nicean Creed. After the Church had forgotten the Master's declaration that His Twelve Apostles would constitute the foundation stones of the New Jerusalem, they began to recognize their bishops as apostolic. They overlooked the fact that God's statement that Judas' place would be filled by another intimated particularly a at there would be a successors to The Twelve. Judas' real

successor was St. Paul. Bible Students now see that the eleven Apostles, before being confirmed in Apostleship at Pentecost, erred in choosing Matthias, whom God merely ignored.

Gradually the bishops rose to power as God's inspired oracles. Proportion ately. The Twelve lost their influence It was easier to take the word of the bishops than to search the Scriptures In their anxiety to overwhelm the Greek skeptics, these Christian teachers unwittingly involved themselves in absurdities. Gradually the trinitarian nystery was advanced; and the myst fication of saying that God was His own Son, the Lord Jesus His own Father, and the Holy Spirit another person and yet the same person, appealed to people who delight to reverence most what they do not understand Thus today, when questions are asked respecting the trinity-how one could be three, and three one, the answer given which satisfies the ignorant is

But the Bible makes no mystery of the matter. It never mentions the trinity. The one text (1 John 5:7) seeming faintly to support the thought | press. is now admitted by all scholars to be an interpolation, dating from about the seventh century. The Revised Version shows quite distinctly the reading of earlier manuscripts.

"To Us There Is One God," The Pastor then explained fully ev ery text in both Old and New Testaments used as a proof-text supporting the trinitarian mystery, and convinced his hearers that these texts are miscolored lights, each consulting applied. He quoted the explicit statement from the Old Testament, "Hear, O Israel, the Lord thy God is one God," and that from the New Testament, used as text for this discourse.

Pastor Russell then showed that, according to our Lord's own teaching, the oneness, or harmony, between the Father and Himself resulted from our Lord's ignoring His own will, to do the Father's will. Our Lord exhorted His disciples to have the same will, spirit-the Holy Spirit-the disposition to do the Father's will.

Our Redeemer, formerly known as the Logos, was the Beginning and the End of the Divine direct creation. (Revelation 1:8; 3:14.) Through Him Jehovah operated in all the stupendous work of creation. So the Greek reads, "In the beginning was the Logos, and the Logos was with the God, and the Logos was a God. The same was in the beginning with the God. By Him were all things made that were made, and without Him was not one thing made."-John 1:1-3.

The Pastor then related the history of the Council of Nice. Constantine called a council of all the bishopsabout one thousand-to settle certain doctrinal differences, of which our subject of discussion was one. Only 384 bishops came. After discussing the subject for months, they submitted it to the Emperor, who decided that the Nicean Creed was the Christian faith. Thus the trinitarian mystery was enshrined by a heathen emperor, unbaptized-not even sprinkled.

March 27, 1894. A year ago there were about twenty saloons at Covington. Now there are but two. Next year, it is said, John Manderscheid will be the only person to make application for a saloon license, and there will be but one saloon. This is because of the policy adopted by the city administration about two years ago.

You can make money raising alfalfa in the Big Horn Basin or North Platte Valley. If you will go with me to either of these localities, I will show you many farms whose alfalfa yield will amaze you. You do not have to sow and reap for each crop. You seed the ground to alfalfa once and then cut three times each year for succeeding years.

You can homestead forty or eighty acres of this land under the Government Canasl, repaying the Government the actual cost of water, the payments spreading over many years, without

The Burlington's new main line through Central Wyoming will traverse these localities and connect them with an immediate and perpetual market at profitable prices. There are, also, deeded lands and Carey Act Lands available in both of these regions.
